Covid 19 Catch up grant.

Ysgol Aberporth will receive a Covid catch-up grant during the academic year of 2020-21. The provisional figure we have received for this grant is £14,097. This is a one off allocation for the academic year of 2020-21 to ensure that those identified as having missed opportunities to learn and develop get the best possible support to help compensate for this shortfall during the Covid-19 pandemic.

How will the grant be spent?

This money is to be spent on additional staffing capacity only and will not be used to purchase any equipment or resources.

From September 2020 Ysgol Aberporth has employed additional staff equivalent to a full time Teaching assistant.

This additional staff has helped the school ensure that there is a full time teacher and teaching assistant in every class throughout the school. Having 2 full time members of staff in every class ensures the school can differentiate more effectively meeting the children's needs.

Also, it will improve the school's capacity to provide interventions in literacy, numeracy and wellbeing to aid pupils' progress and ability to catch up.

How will the school ensure effective use of the grant?

The school will monitor lessons and scrutinise books in order to judge pupils are progressing well. Also, the school's tracking system will be updated every term and any additional support that is required will be highlighted.
